Re: Class II Permissive Change: UTU-01019715

Dear Sir(s):

Please accept this Class II Permissive Change request pursuant to §2.1043(a). The change is the reduction of RF output power as reported previously. The reduction in output power is achieved by a factory power setting that cannot be changed by an end user; NovAtel Inc. retains full control of this power setting. This change affects the Grant issued on 09/29/2017.

Sincerely,
